EY GDS (Global Delivery Services) means 46.000 specialists providing globally IT, project management and strategic business services to EY member firms. In addition we deliver support and solutions to clients from all over the world.

Within last few years our portfolio of IT services within EY Global Delivery Services became wide spread around the globe. We are running multiple international, from small through medium-to large software implementation projects worldwide, amongst other working on implementing web and cloud based solutions leveraging most of modern technologies.
