Makeitright was established in 2013 from the combination of knowledge and experience of people involved in the design, implementation and development of change management processes in IT environments. On this basis, an entity offering services in the area of process and project management, PMO and tests automation was created. Today, as a provider of unique solutions for tests and business processes automation, as well as qualified IT consultants in the field of software testing and development, makeitright successfully implements projects for its business partners from the financial, telecommunications, production and services sectors, both on the Polish and foreign markets.
